#### Cellular Setup Complete

Your Drei eSIM is now active on this iPhone.

#### Cellular Plan Labels

Choose labels for each of your cellular plans.

#### Primary

LABEL FOR YOUR Drei PLAN

#### **Default Line**

:.... 穼 30

Your default line is used to call or send messages to people who are not in your contacts.

The people in your contacts can be assigned a preferred line at any time in the Contacts app.

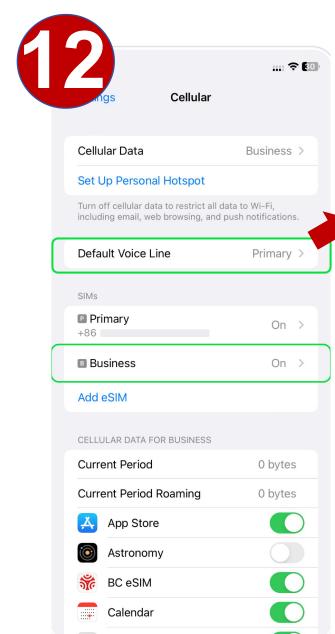

Primary	✓

Business

You can customize this later in Settings.

OS 	till ? Eack	
iMessage & FaceTime	<b>Cellular Data</b> Choose your default line for cellular data. If you want the best coverage, you can enable cellular data fallback.	
Choose which cellular plans you want to use with iMessage and FaceTime for your Apple ID.	<ul><li>Primary</li><li>Business </li></ul>	
<ul> <li>Primary +86</li> <li>Business Your new 1010 / csl plan</li> </ul>	Allow Cellular Data Switching	Why is the Allow Cellular Data Switching set to OFF?
	Turning this feature on will allow your phone to use cellular data from both lines depending on coverage and availability. You can change your selection later in Settings > Cellular > Cellular Data.	Allow Cellular Data Switching must be set to OFF so that could <b>avoid using the network of</b> the Primary SIM and incurring additional dat charges.
Continue	Done	

How do I check the call /text message from my home country?

Please set the Default Voice Line to Primary, and you could check the call or text message from your country. However, there may be charges for receiving and sending letters.So please do! Use the data phone (Facebook,Line etc.)to contact your friends!

#### eSIM Settings is completed!!!

If you have followed all the above steps but still not successfully connected to the network, then check the **APN Settings**.

#### eSIM Settings is completed!!!

If you have followed all the above steps but still not successfully connected to the network, then check the **APN Settings**.

## Why is the Data switching set to OFF?

Data conversion must be set to OFF in order **not to use baseline SIM** (basic carrier) data and **not incur costs for data usage**.

### Connect to mobile network

To use a new SIM card, you'll need to remove the one that's currently in the device

Download a SIM instead?
 Add a number using eSIM

G

x •1

6

#### Download your SIM

•

Connect to your mobile network by downloading the info that's usually on a SIM card. This replaces standard SIM cards and is just as safe.

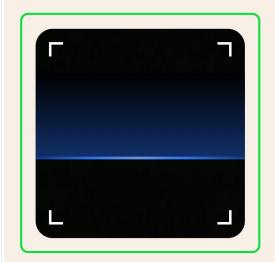

Open source licenses, Privacy policy and Terms of service

x 🕶 🛛 🗎

### Scan QR code from network

If your network provider gave you a QR code, scan it now by keeping the code centered in the box
