DAY 1

SONGDO

1100-1130: Check-in your stay at Songdo Hanok Village

Check in and check out one of the most unique accommodations that has preserved its traditional flair throughout the decades. Hanoks, traditional Korean houses, retain the original structure and design of family homes, and give off a warm and homely vibe amongst its wooden beams and rafters.

The juxtaposition of blending the past with the present is intriguing, as the position and influence of hanoks in Korean architecture still hold firm amidst modern high-rises and luxury apartments right in the centre of the commercial district.

Getting there: From Incheon Airport, take 6707B bus via Kal Limousine to Songdo
Address: 200 Technopark-ro, Yeonsu-gu, Incheon

1145-1430: Get moving at Songdo Central Park

Keeping the momentum as you walk the short distance from your accommodation to the one and only Songdo Central Park, which stretches across an area of over 100 acres with greenery and water. With a variety of activities available, the park sets itself apart as one of the nation's best green spaces. It is host to a 1.8km seawater canal stretching from the east to the west.

We highly recommend you to navigate the area leisurely by renting a family boat, canoe, SUP (a rafting board you paddle standing up) or kayak available at the Songdo Komarine East Boat House to make your way through the waterways. An alternative would be to take the water taxi from the West Boat House for a picturesque view of the surrounding skyline. On water or by foot, the park provides a breath of fresh air right in the middle of the bustling city.

Address: 196 Technopark-ro, Yeonsu-gu, Incheon

1445-1545: Head up the G Tower

You definitely can't miss out on this landmark in Songdo, easily identifiable by its bold geometric exterior. On the inside, G-Tower is also famous for having unique floor plans for each of its 33 stories and being eco-conscious with ample natural lighting flowing through the glass.

At first glance, it may seem like any other office building, but make sure to head upstairs to the Sky Garden open to visitors during the day, from which you'll get to see Songdo fully from the high vantage point. If you're keen to explore and tour around the area, you can even rent bicycles here.

Address: 175, Art center-daero, Yeonsu-gu, Incheon

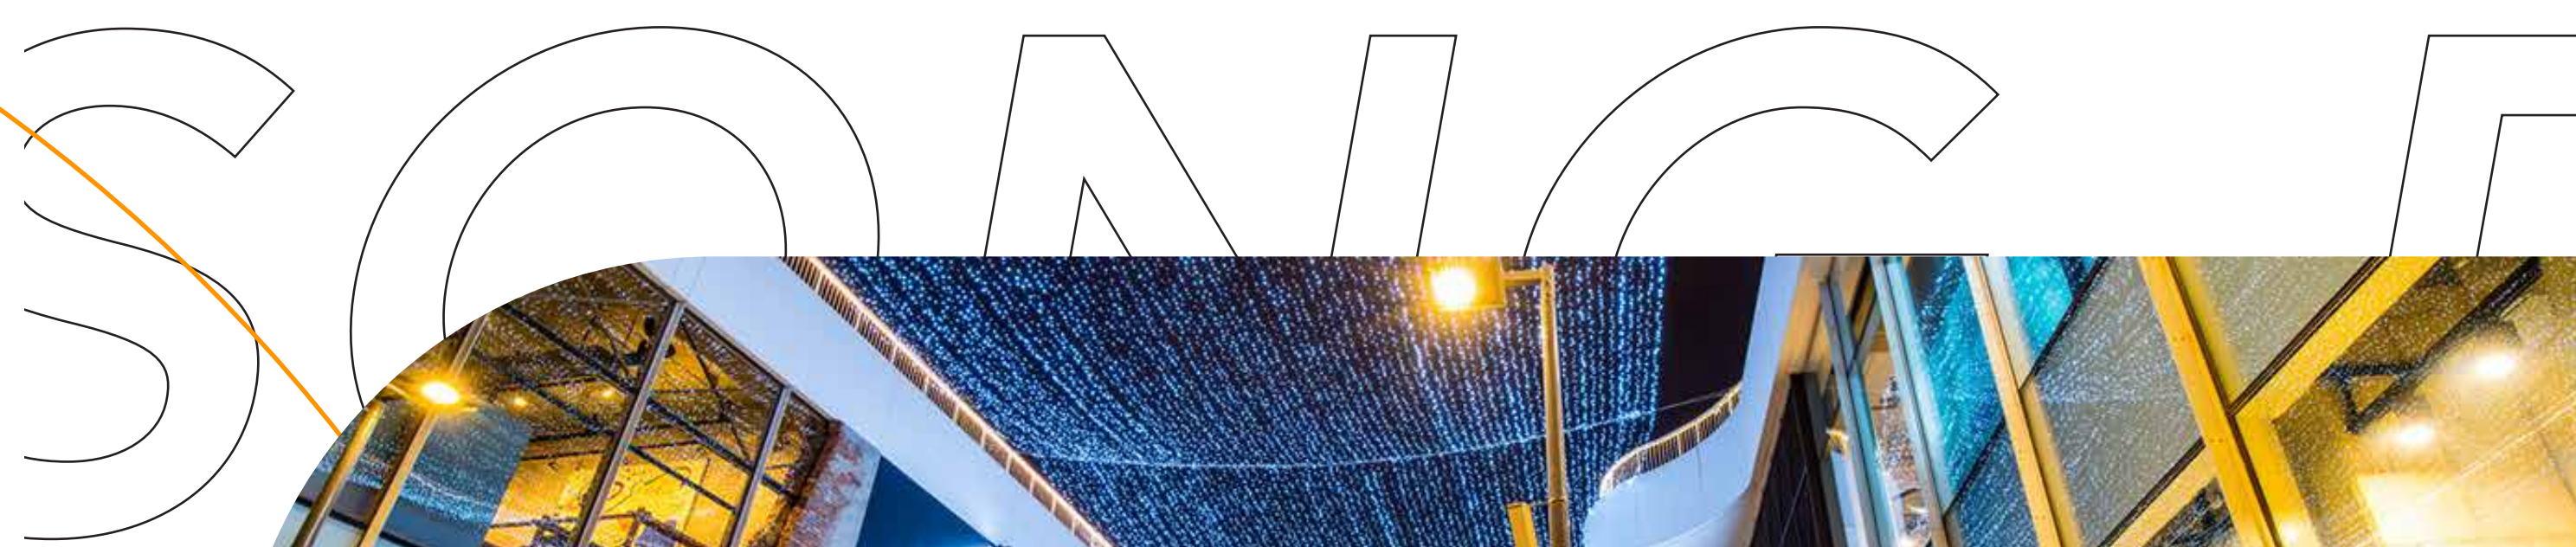

DAY 1

1615-1930: Spend the evening on Triple Street

Make your way back to the main island dubbed as the sustainable city of the future as well as the "Gangnam of Incheon".

Feed your belly and satisfy your shopping urges at Triple Street for an all-in-one experience. The Ground Street, Under Street and Park Street can satisfy all your needs in shopping, dining and relaxation. You can tell they definitely keep the latest trends in mind, as they bring together local and international installations and franchises across the hub.

Along the Park Street, drop by The Sky Observatory to catch a glimpse of the Songdo skyline, or wind down on Healing Hills designed to bring green lawns to the city so you can relax after a long day.
